Docket No. 00-00280
Staff's Data Requests
April 6, 2001
Item No. 1
Page 1 of 1

REQUEST: When did the parties begin negotiations of the settlement referred to in your letter of March 26, 2001?

RESPONSE: Ongoing settlement discussions began in October 2000.

REQUEST: When did these negotiations conclude?

RESPONSE: The negotiations concluded on March 23, 2001.

REQUEST: When did the settlement become effective?

RESPONSE: The settlement became effective upon the signature of both parties. The rates are retroactive to 01/01/00 and through 12/31/01.

REQUEST: Does the settlement contain any rates, terms, and/or conditions relating to the interconnection of the networks of BellSouth and Intermedia different from those contained in the Interconnection Agreement approved by the Authority and under which the parties are presently operating in Tennessee?

RESPONSE: Yes. However, such new rates, terms, and conditions will be contained in the new Interconnection Agreement between BellSouth and Intermedia which will be submitted to the Authority.

REQUEST: If the answer to (4) above is yes, will the settlement be filed with the Authority for approval as an amendment to the parties' Interconnection Agreement previously approved by the Authority and under which the parties are presently operating in Tennessee? If not, why not?

RESPONSE: Please see Intermedia's response to Staff's Data Requests, Item No. 4. The parties agree that the portion of their settlement agreement incorporating terms and conditions applicable to on a going-forward basis will be filed with the Authority for approval. One part of the settlement agreement, however, refers to the settlement of past claims in the State of Tennessee. Such agreement is only for settlement of the specific ISP complaint and is unrelated to the parties' interconnection agreement. That part of the settlement agreement is confidential and does not require Authority approval.
